TURNER, DAY & WOOLWORTH HANDLE CORP.

CROSSVILLE, TENNESSEE • U. S. A.

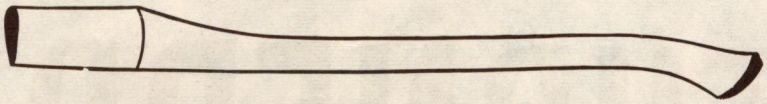
1855-1955 A CENTURY OF SERVICE

Registered Brands of **Turnerday** Hickory Handles

WITH **REDDY FIT EYES** AND **WEDGES**

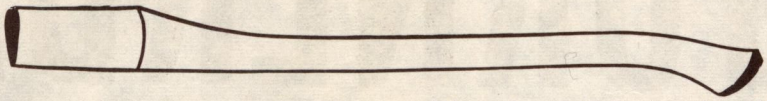
Code

DB **Daniel Boone**



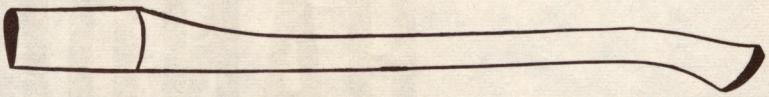
All white, straight grain, heavy weight hickory. Free from all defects, the finest selection of handles for use where safety, long life and expert workmanship are desired.

P **Perfection**
PE **or Peerless**



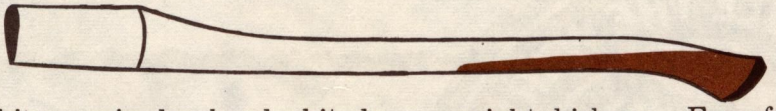
All white, straight grain, heavy weight hickory. Free from defects. A selection for long, safe service.

T **Triumph**
B **or Beauty**



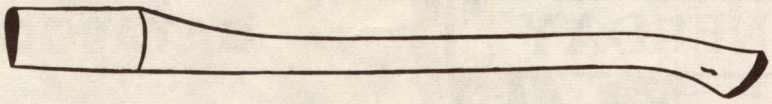
Good quality, white hickory. Slight blemishes of growth permitted in areas not affecting service of the handle.

H **Hercules**



First quality white or mixed red and white heavy weight hickory. Free from all defects. An excellent service selection for mine, railroad and heavy construction requirements. An economical, durable long life handle.

D **Diamond**

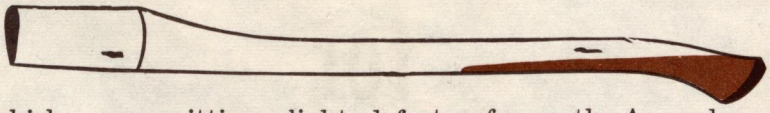


White hickory handles permitting red tips. Small blemishes are allowed as long as they do not impair service or appearance of the handle. A handle of good appearance for rugged service.

S **Success**
DA **or Daisy**

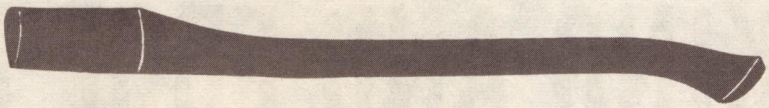
Red or mixed hickory, permitting slight blemishes, good weight straight grain hickory. Suitable for general work, contractors, industrial or mine service.

E **Eagle**



Largely white hickory permitting slight defects of growth. A good competitive handle.

GH **Genuine Hickory**



Mahogany stain—wax finish. A competitive priced handle. This handle will give good service.

Fire Finished Hickory

Available In Two Brands

FT

FLAME TEMPERED—A Grade Hickory

Fire Finished—waterproof sealer. Handles are furnished with Reddy Fit Eyes and wedges (where required). An excellent quality with tremendous sales appeal as well as superior service and long life.

FK

FOREST KING HICKORY

Fire Finished—waterproof sealer. Handles are furnished with Reddy Fit eyes and wedges (where required). An excellent handle at competitive prices. Unusual sales appeal together with the ability to withstand hard service.

TURNERDAY handles are made to the most exacting specifications in the handle industry. Every TURNERDAY handle is guaranteed in the jobbers or dealers stock as well as in use by the consumer. This guarantee includes warpage, borer infestation or any natural causes which might impair the handles' sale or service.

HOW TO USE THE CODE IN IDENTIFYING BRAND, STYLE, LENGTH OF HANDLES.

On Page 2 is shown the code letters of our standard brands of handles.

On the various pages of this catalog are shown the basic pattern numbers of our various standard patterns. Specialized pattern numbers made for thousands of different tools are available upon request. These numbers which are used for identifying each different pattern are listed opposite each item on our invoices as well as our order forms. In most cases individual handle are foil branded with these numbers.

To code a handle item to simplify describing in an order, show first the letter code which indicates brand.

Combine this with pattern number of the item as shown in the following pages. Thus, a Perfection brand 14 inch Adze Eye Nail hammer handle would be coded P105-14.

All handles are oval unless specified otherwise. Octagon pattern is shown by —O following length. Thus, a Perfection 14 inch Octagon Adze Eye Nail hammer handle would be coded P105-14-O.

SLEDGE, STRIKING HAMMERS, SPIKE MAUL AND NAPPING HAMMERS

THESE ITEMS ARE STANDARDIZED UNDER SIMPLIFIED PRACTICE SPECIFICATION R17-47 AND INFORMATION LISTED APPLIES TO ALL MANUFACTURERS ALIKE

SLEDGE HANDLES 30", 32", 36", 34" Also 22" and 36" PATTERN No. 68 Will fit Striking hammers 1 2/16" x 15/16" — size of handle at tip of eye Tool No. 2 eye 1½" x 1"	Will fit 6 and 8 pound Sledges, Striking Hammers, Stone Sledges, Bush Hammers, Napping Hammers, Oval Eye Woodchoppers Mauls. Pattern No. 68 Handle while designed primarily for 6 and 8 pound tools is shaped so it will also fit 10 and 12 pound tools, we recommend heavier handle pattern 1016.
SLEDGE HANDLES 36", 32" also 40", 42" PATTERN No. 1016 Will fit Spike Maul and Striking Hammers 1 5/16" x 15/16" — size of handle at tip of eye Tool No. 2 eye 1½" x 1"	Will fit 10-12-14-16 pound Sledges, Striking Hammers, Stone Sledges, and Spike Mauls. For those desiring a heavier handle for 6 and 8 pound tools Pattern 1016 handles can be easily adapted to these tools by slight reduction of the eye of the handle.
HEAVY SLEDGE HANDLES 36", 32", 30" PATTERN No. 1824 1 7/16" x 1 3/16" — size of handle at tip of eye Tool No. 2 eye 1½" x 1¼	Will fit 20-22-24 pound Sledges and Steel Mauls (Not cast iron post mauls).

TURNER, DAY & WOOLWORTH HANDLE CORP.
"WE HANDLE THE WORLD"
Crossville, Tennessee

WRITE US FOR YOUR COPY OF OUR WALL CHART.

Prefitted (gauged) eyes requiring closer tolerance than our standard handles.

Where sizeable amounts of handles are required to handle specific makes and weights of tools it is possible to order (at extra cost) gauged eye handles. These handles are individually sized to fit the tool and are checked carefully to a gauge. Gauged handles are coded with a suffix G. Thus, a 36″ Perfection sledge handle gauged to tool would be P1016-36-G.

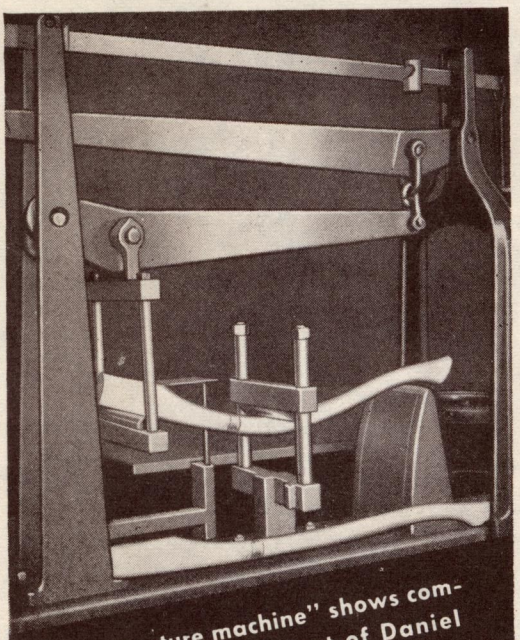
USE THE BEST

Safer

Longer Life

Less Expensive in Fitting

Resilient and Shock-Absorbing

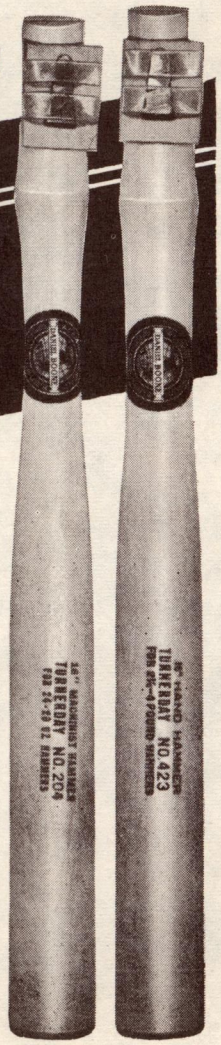


This "torture machine" shows comparative strength test of Daniel Boone and other handles.

25% to 40% stronger

A Superior Selection of Superlative Hickory

Daniel Boone



Standards are so rigid, only 2 out of every 100 handles we make qualifies to carry this label.

TURNER, DAY & WOOLWORTH HANDLE CORP.

CROSSVILLE, TENNESSEE

HAND SPLITTING HICKORY BILLETS

We make our Hammer, Hatchet and Sledge Handles from Hand Split Second Growth Hickory Billets. While it is a slower and more expensive way of making handle stock, nevertheless, it is by far the best. Aside from the fact that a Hand Split Billet is absolutely straight grain as the block is split with the grain, more important it permits us to use young hickory saplings of the greatest strength, resiliency and shock withstanding quality. These small, young saplings are too small to saw satisfactorily, yet they make ideal handle material.

Our timber operations extend from Indiana, through Kentucky and through the state of Tennessee. Being the largest buyers of hickory in the world we are able to choose hickory which meets our most critical specifications.

OUR HANDLES ARE ALWAYS MADE FROM FOREST TO FINISHED PRODUCT—UP TO A STANDARD AND NEVER DOWN TO A PRICE.
